

# Lesson 16 Additional Activity

## Materials

### Bee-Attitudes

- yellow felt squares
- black markers
- black chenille pipe cleaners, cut into 2" pieces (three pieces per child)
- self-stick googly eyes (or glue/paste)
- safety scissors

### Before the Lesson:

- Using a black marker and one yellow felt square, draw and create a bee template.
- Place the craft items on an activity table.

## Exploring

### Bee-Attitudes

- Give each child a piece of yellow felt, and the other materials needed to make the bee. Using the bee template you made earlier, let them trace it on the yellow felt, then cut out the felt bee.
- Have the children color the black stripes on the lower half of the bee figure, and glue/stick the googly eyes on the top of the upper half of the figure.
- Show the children how to cut a tiny slit in the felt to add and secure the pipe cleaner antennae and the pipe cleaner nose.
- Remind the children that the bee is to help them remember the bee-attitudes, and to practice what Jesus teaches, we must watch our attitudes and “bee busy” like a “busy bee” to bless and be blessed.
